ADAM L. WRIGHT
President and CEO

MidAmerican Energy Company, based in Des Moines, Iowa, meets customers' energy needs by providing safe, reliable, affordable and clean energy to customers in Iowa, Illinois, South Dakota and Nebraska.

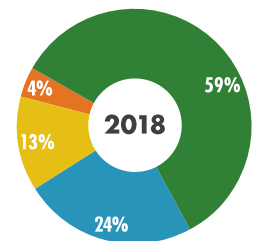

COMMITTED TO CUSTOMER SATISFACTION

- Our customers deserve the best, and we're committed to providing exceptional service. We solicit customer feedback to ensure we not only meet, but exceed, their expectations and we strive to rank among the nation's leading energy providers in national surveys measuring overall customer satisfaction.
- MidAmerican Energy was recognized as a Customer Champion by Cogent Reports' 2018 Utility Trusted Brand & Customer Engagement Business study. MidAmerican Energy was also named a "Residential Customer Champion" for the fifth year in a row.

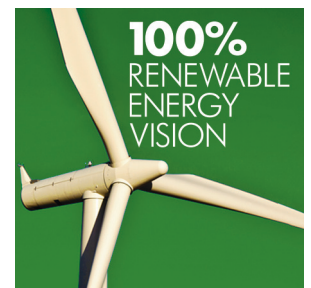

RENEWABLE ENERGY LEADER

- MidAmerican Energy is one step closer to delivering on its 100% Renewable Energy Vision with the announcement of the Wind XII project in 2018. Wind XII is a 591-megawatt project that will allow us to provide renewable energy to our Iowa customers each year that is equal to 100% of their usage.

GENERATION CAPACITY

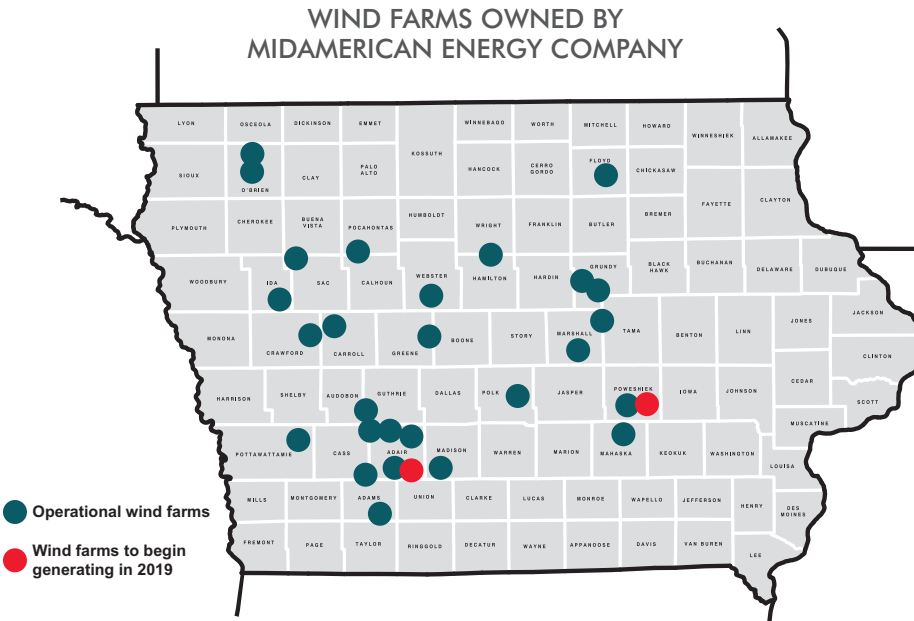

- WIND
- COAL
- NATURAL GAS
- NUCLEAR/OTHER

> CONTINUED ON BACK

- More than 50% of the electricity MidAmerican Energy provides its Iowa customers on an annual basis comes from wind energy. That is possible thanks to the more than 2,600 wind turbines in Iowa, owned and operated by the company.
- In addition to being the rate-regulated utility with the most installed wind generation capacity, MidAmerican Energy keeps pushing to find even more ways to serve its customers and their demand for clean energy. In 2018, MidAmerican Energy initiated a battery pilot project to test how best to use an energy storage system and how it can serve customers in the future.

GIVING BACK TO COMMUNITIES

- Through community involvement, valued partnerships, sponsorships and charitable giving, we're committed to making our communities the best they can be. We sponsor a variety of organizations and events that promote science, technology, engineering and math education, student athletes and renewable energy. Through our Global Days of Service and Matching Gift programs, we support employees' contributions of time and money to charitable organizations or educational institutions.

DEMONSTRATING ENVIRONMENTAL RESPECT

- Since 2001, MidAmerican Energy has been honored by the National Arbor Day Foundation and the National Association of State Foresters with the Tree Line USA designation for helping to preserve and protect trees in the communities we serve.
